Melden Sie sich mit Ihrer Kolping-Mailadresse an:

A screenshot of the Microsoft sign-in page. At the top left is the Microsoft logo. Below it, the text "Sign in" is displayed in a large, bold font. Underneath, there is a text input field labeled "Email or phone". Below the input field is a link that says "Can't access your account?". At the bottom right of the sign-in area is a blue button labeled "Next". Below the main sign-in area is a section titled "Sign-in options" with a magnifying glass icon.

Geben Sie hier nun Ihr Einmalpasswort ein (dieses wurde Ihnen vorab von der IT zur Verfügung gestellt).

A screenshot of the Microsoft "Enter password" screen. At the top left is the Microsoft logo. Below it, the text "Enter password" is displayed in a large, bold font. Above this, there is a back arrow icon and the email address "b.huff@kolping.at". Below the "Enter password" heading is a text input field labeled "Password". Below the input field is a link that says "Forgot my password". At the bottom, there is a link that says "Use your face, fingerprint, PIN, or security key instead". At the bottom right is a blue button labeled "Sign in".

Sie gelangen nun zur Security-Info-Webseite.

Tippen Sie hier auf „Add sign-in method“.

Security info

Vergeben Sie einen geeigneten Namen z.B. "**nachname-key**".

A dialog box titled "Security key" with a close button (X) in the top right corner. The text inside says "Name your security key. This will help distinguish it from other keys." Below this is a text input field containing "demo-key". At the bottom right, there are two buttons: "Cancel" and "Next". The "Next" button is highlighted with a red rectangular border.

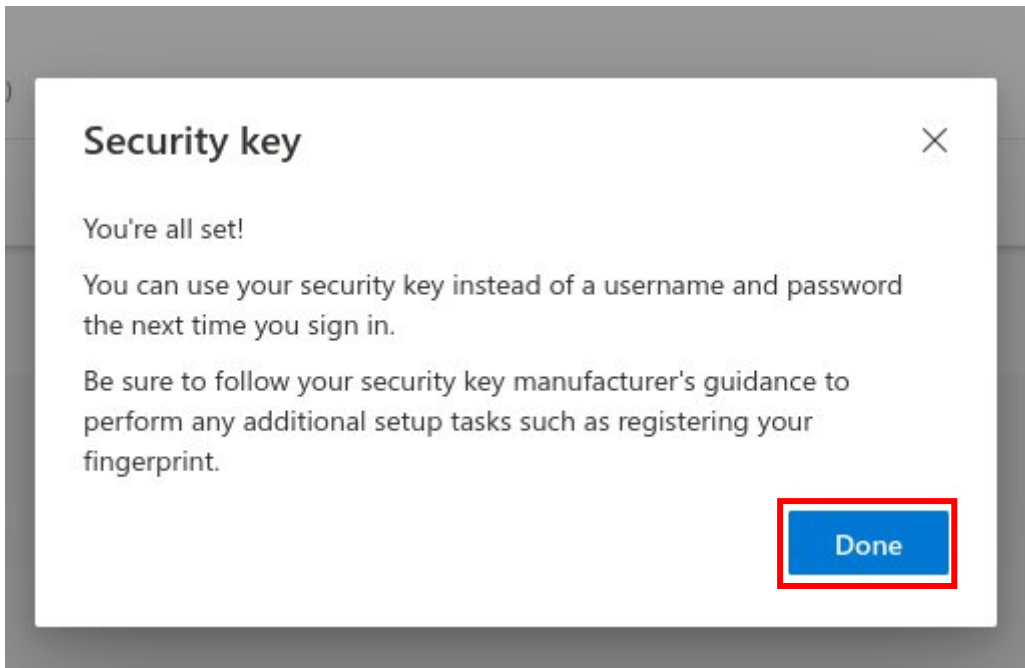

Security key

Name your security key. This will help distinguish it from other keys.

demo-key

Cancel Next

Tippen Sie nun auf "**Done**".

A dialog box titled "Security key" with a close button (X) in the top right corner. The text inside says "You're all set!" followed by "You can use your security key instead of a username and password the next time you sign in." and "Be sure to follow your security key manufacturer's guidance to perform any additional setup tasks such as registering your fingerprint." At the bottom right, there is a blue button labeled "Done" which is highlighted with a red rectangular border.

Security key

You're all set!

You can use your security key instead of a username and password the next time you sign in.

Be sure to follow your security key manufacturer's guidance to perform any additional setup tasks such as registering your fingerprint.

Done

Ihr Yubikey wurde nun erfolgreich hinzugefügt.

A horizontal list of security keys. Each entry consists of a small icon, the text "Passkey (Device bound)", the name "demo-key", a "Delete" link, and a downward arrow icon.

Passkey (Device bound) demo-key Delete
